awake to a sense of your awful situation

**FOR IMMEDIATE RELEASE  
ACTION ALERT**

## **MORE ON MICROCHIPPING "Hillary's Frankenstein-Baby"**

**August 17, 2015 – The [American Resistance Party](#) has determined that even though yesterday's Action Alert was "unproven" (charges that microchipping was done to Clint, TX citizens) there is enough evidence that the Federal Government has been long in favor of this practice (at least 23 years) (since 1992).**

**Whereas <http://m.snopes.com/blew-chips/> claims that this Clint, TX event could never happen, the [thenewamerican.com](http://thenewamerican.com) (TNA) disagrees. TNA reported in 2010:**

*To effectuate a national healthcare system, the federal government advances the use of RFID technology to be used in each medical patient for healthcare purposes. More than just for the treatment of the patient, the federal government proposes a "nationwide electronic health care information network for research and disease prevention."*

*Without equivocation, on **October 19, 1992**, Health and Human Services (HHS) Secretary Louis W. Sullivan, said: "It is our intention to act on our own and with the private sector in every area where we have authority to bring the new electronic network into being." It was this same "electronic network" of healthcare that was advanced by G.W. Bush during his administration: "Strengthening the health care safety net is a necessary part of improving American's access to care."*

**(Note: this microchipping can be considered [Hillary Clinton's Frankenstein-baby](#))**

**[obamacarefacts.com](http://obamacarefacts.com) confesses to the true history of their chipping agenda:**

*"The RFID implant rumor came from an old version of the Affordable Care Act, America's Affordable Health Choices Act of 2009 HR 3200. HR 3200 included a section that allowed for data to be collected from all class II devices (which includes RFID chips) for purposes of post-market safety and outcomes data. The final law, the Patient Protection and Affordable Care Act HR 3590 (ObamaCare), removed this wording and does not include any wording pertaining to data collection from class II devices or any rules regarding their implantation.*

**Next, they say...**

HR3200 was an unsuccessful bill introduced in the U.S. House of Representatives on July 14, 2009. Page 1001 of HR3200 included an amendment to section 519 of the Food, Drug and Cosmetic Act which allowed for data collection to “*facilitate analysis of postmarket safety and outcomes data*” from class II devices (An RFID chip is classified as a class II device by the FDA).

## And they say...

“The final law, the Patient Protection and Affordable Care Act HR 3590 (ObamaCare), removed this wording and does not include any wording pertaining to data collection from class II devices or any rules regarding their implantation.”

<http://obamacarefacts.com/obamacare-microchip-implant/>

## Wordage of old HR3200:

HR3200 amends Title 21 Section 519 §360i. Records and reports on devices of the Food, Drug and Cosmetic Act (21 U.S.C .360i). Below is the applicable language contained in the Food, Drug and Cosmetic Act. [Here is a link to the text of title 21 of the Food, Drug and Cosmetic Act](#) and [here is a link to America's Affordable Health Choices Act of 2009 HR 3200](#)

(g)(1) *The Secretary shall establish a national medical device registry (in this subsection referred to as the ‘registry’) to facilitate analysis of postmarket safety and outcomes data on each device that—*

*(A) is or has been used in or on a patient; and*

*(B) is—*

*(i) a class III device; or*

*(ii) a class II device that is implantable, life-supporting, or life-sustaining.*(2) In developing the registry, the Secretary shall, in consultation with the Commissioner of Food and Drugs, the Administrator of the Centers for Medicare & Medicaid Services, the head of the Office of the National Coordinator for Health Information Technology, and the Secretary of Veterans Affairs, determine the best methods for—(A) including in the registry, in a manner consistent with subsection (f), appropriate information to identify each device described in paragraph (1) by type, model, and serial number or other unique identifier;(B) validating methods for analyzing patient safety and outcomes data from multiple sources and for linking such data with the information included in the registry as described in subparagraph (A), including, to the extent feasible, use of—

*(i) data provided to the Secretary under other provisions of this chapter; and*

*(ii) information from public and private sources identified under paragraph (3);(C) integrating the activities described in this subsection with—*

*(i) activities under paragraph (3) of section 505(k) (relating to active postmarket risk identification);*

*(ii) activities under paragraph (4) of section 505(k) (relating to advanced analysis of drug safety data); and*

*(iii) other postmarket device surveillance activities of the Secretary authorized by this chapter; and...3(B) In this paragraph, the term ‘data’ refers to information respecting a device described in paragraph (1), including claims data, patient survey data, standardized analytic files that allow for the pooling and analysis of data from disparate data environments, electronic health records, and any other data deemed appropriate by the Secretary.*
