## **THE GLAZIEV DIRECTIVE Sabotaging the U.S. Dollar**

August 11, 2015 – [w3.financialintelligencereport.com](http://w3.financialintelligencereport.com) reprinted an article titled, “The Glaziev Directive.” It was about six global giants who have formed a \$16.7 trillion alliance with a single goal of sabotaging the U.S. dollar and sending our money on a death spiral that could destroy up to 70% of American household wealth overnight. Read how they're going to do it:

**They also quote Pentagon insider and former CIA analyst Jim Rickards who said:**

*Jim: "That's right. It further proves that the Fed can't fix the system. And worse yet, because of the Fed, there is a real possibility that Congress may have to step in and bail out the Fed at some point."*

*"The only problem is that Washington has nowhere to turn to get the money. With \$17 trillion debt, who would be willing to loan us a quick \$4 trillion to keep the Fed afloat? It won't be the International Monetary Fund or World Bank since we are the biggest financial contributors to both of these organizations."*
