**FOR IMMEDIATE RELEASE  
ACTION ALERT**

**2005 TRUTHER ANNIVERSARY  
Coming this Week!**

**9/18/17 – EDWARD C NOONAN, Former 2012 & 2016 Presidential Candidate alert:**

**This week marks the twelfth year of Stephen Jones PhD refutation of the lies that the government had put out concerning 9-11. Here is a summary of his research:**

**Wikipedia:** On **September 22, 2005** Jones presented his views on the collapse of the World Trade Center towers and World Trade Center 7 at a BYU seminar attended by approximate-ly 60 people. Jones claimed that a variety of evidence defies the mainstream collapse theory and favors controlled demolition, using thermite. The evidence Jones cited included the speed and symmetry of the collapses, and characteristics of dust jets. Later, Jones claimed he had identified grey/red flakes found in the dust as nanothermite traces. He has also claimed that the thermite reaction products (aluminium oxide and iron-rich microspheres) were also found in the dust.[20] He called for further scientific investigation to test the controlled demolition theory and the release of all relevant data by the government. [21] Shortly after the seminar, Jones placed a research paper entitled "Why Indeed Did the WTC Buildings Collapse?" on his page in the Physics department Web site, noting that BYU had no responsibility for the paper.[22]

Jones subsequently presented the WTC research in lectures at Idaho State University, Utah Valley State College, University of Colorado at Boulder and University of Denver, the Utah Academy of Science, Sonoma State University, University of California at Berkeley, and the University of Texas at Austin.[23][24][25][26][27][28][29]

On September 7, 2006, Jones removed his paper from BYU's website at the request of administrators and was placed on paid leave.[30] The university cited its concern about the "increasingly speculative and accusatory nature" of Jones' work and that perhaps Jones' research had "not been published in appropriate scientific venues" as reasons for putting him under review. The review was to have been conducted at three levels: BYU administration, the College of Physical and Mathematical Sciences, and the Physics Department.[31] However, BYU discontinued the review.[8] Some of Jones' colleagues also defended Jones'

9/11 work to varying degrees,[32] and Project Censored lists his 9/11 research among the top mainstream media censored stories of 2007.[33]

The **American Resistance Party** is not sure which is the biggest hoax? Is it the lies and deceit of 9-11 or is it the deceit of the Muslim-Kenyan-Indonesian-homosexual-

Marxist non-Article II bogus POTUS named BHO?

In this video (undoctored) original filming of the 2<sup>nd</sup> Tower crash, there was a “ball” coming at the tower.

This could hardly be a large aircraft as described by later reports.

And there were also lies and deceit about the Pentagon! See below:

<https://www.youtube.com/watch?v=LPKq2K2dh6k>

It wasn't only Jones that could not stomach the lies of the News Media and lying government officials, but many of us also can't seem to accept the falsehoods.

But most Americans have swallowed both fantasies spun by D.C. as well as

accepted a Muslim homosexual as their ex-President for eight years. But WE DON'T!
